Attachments: 05092013_AndaWalgreensControlReport.xlsx; FLORIDA_CII_LIMITS_-_IT_FINAL_0405131(1).xlsx; Limits_Boston_IT_File(Revised Limits).xlsx; WALGREENS REQUEST FOR LIMIT INCREASE.docx

Importance: High

Team RxIntegrity:

Ok, I think we found a way to assist with the managing of limits on a daily basis

On the attached spreadsheet, there are 2 tabs at the bottom of the report:

1. How close the stores are to reaching their limits (%)
2. Which stores have already hit their monthly threshold (also denoted on the chart below) These obviously need to be addressed ASAP.

Account #	Name	DEA#	Store #	Drug Family	Monthly Limit	Qty	Available
94010	WALGREEN CO	BW7609564	06149	METHADON	1000	1000	0
461776	WALGREENS #11808	FW2202101	11808	OXYCODON	2500	2500	0
155725	WALGREENS # 12130	FW3659440	12130	OXYCODON	2000	2000	0
93613	HAPPY HARRY'S INC.	BH9875115	11006	LISDEXAMFETAMIN	1000	1000	0
95618	WALGREEN EASTERN CO., INC.	BW9532068	09177	HYDROMOR	1000	1000	0
844266	HAPPY HARRY'S INC	FH0606927	11080	LISDEXAMFETAMIN	1000	1000	0

Also remember that you can compare the specific store level NDC limits Robert provided in the past couple of days for all 1,100ish stores we service If there are deltas between our limits that need to be addressed, we're committed to addressing limit increases ASAP Robert also provided a template form that you guys could send the stores to assist with that process I've attached all 3 of those files too

Let me know what your thoughts are on the report We want to assist in any way possible so that your stores, & ultimately your patients, receive the prescription medication they need !!

Thanks for continuing to partner with us!
